Open Position: Technician – Optics manufacturing (m/f/d)

Employment type: on-site

Contract: Permanent

Location: Garching (Munich area)

UltraFast Innovations GmbH is a high-tech spin-off in Garching, north of Munich. UFI designs, manufactures, and supplies state-of-the-art optics and devices for ultrashort laser applications. Our products enable leading research and industrial progress in ultrafast photonics, attosecond science, and high-power laser technology. Our portfolio includes dispersive mirrors, broadband beamsplitters, AR/HR coatings, and systems designed for the generation, characterization, and manipulation of ultrafast light, along with instruments for characterization and quality control of optical components.

UFI collaborates with leading laser manufacturers, research institutes, and industrial partners worldwide and are expanding our commercial presence in Europe, North America, and Asia.

We are looking for a new colleague to join the UltraFast Innovations team as:

Technician – Optics manufacturing

Your tasks:

As an employee involved in optics manufacturing, you will take on supporting tasks for all technical matters in the preparation of coating projects in the manufacturing process of laser mirrors. You will be an integral part of our international team of employees and actively work on improving internal procedures and processes in product manufacturing. This includes:

- Cleaning of the optical components and their quality control, preparation of the parts for the surface processing
- Carrying out preparatory and accompanying production activities
- Working in classified cleanrooms with appropriate hygiene clothing
- Maintenance and operation of system technology

Your skills:

- Completed technical education, experience in handling optical components
- Excellent eyesight and skilled use of optical components
- Basic knowledge of using optical measurement methods, processing measurement results
- Quick comprehension, hands-on skills and good fine motor skills
- Independent and structured way of working

- Contact strength and high communicative competence.
- Fluent English and willingness to travel (1-2x per year).
- Previous industrial experience would be a plus/preferred.

We offer:

- Work at the frontier of ultrafast photonics and attosecond science
- Competitive salary and performance-based bonus
- A dynamic, young, multicultural working environment within a growing company
- Opportunities for professional growth
- Autonomy, ownership, and opportunity to drive results

Contact:

We look forward to receiving your application!

Please send us your application documents (CV and motivation letter) including a possible start date and your salary expectations to info@ultrafast-innovations.com
